

OTL ALGAS ANTI-LIGATURE GRATING FOR SHEET FLOORING

The OTL ALGAS, an anti-ligature drain cover and trap, has been designed specifically for prison wet areas with sheet flooring. Manufactured for OTL, the unique stainless steel cover plate contains a particular layout of holes that makes tampering impossible.

It is secured into the trap with screws that can only be removed with a specific implement, the shape of which cannot be copied by taking an imprint of the head. The OTL ALGAS has been approved by the Home Office and installed in several custodial developments.
