BATHE BATHROOMS
SPEC SHEET

SECTOR:
Retail Showroom

OUR CLIENT:
Bathe Bathrooms

OTL PRODUCTS:
Working display of the OTL INFINITY I-Line within their Amersham showroom

OVERVIEW

It's not every day a showroom creates a flagship display to promote our most premium product, but that's exactly what Bathe Bathrooms in Amersham, Buckinghamshire, have done.

Bathe are a family run company with local clients at the heart of their business and have been using and recommending our wet room systems since their inception over fifteen years ago.
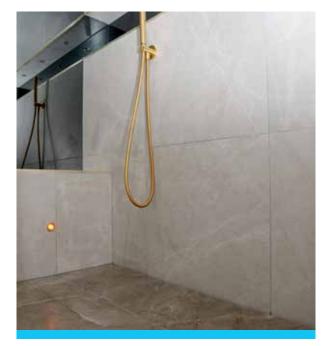

Bathe trades predominantly through recommendation and word of mouth from their many existing customers, and they work closely with their clients to offer a complete turnkey package; from design, through to recommendation and supply, and final installation.

Bathe Bathrooms have a showroom of over 20 bathroom displays, many of which are fully functioning. The On The Level INFINITY I-Line is epitome of subtle design and luxury showering, and Bathe are pleased to offer a working display of INFINITY I-Line on show in their Amersham showroom.
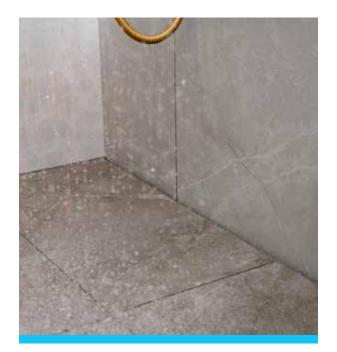

WHY USE ON THE LEVEL?

We asked Bathe why they come back to OTL time and time again…here's what they said:

• Our quick drawings – we aim to turnaround design drawings in 24 hours.

• Great customer service – we are always on hand to help clients overcome problems.

• We are local – we encourage visits to our factory from any of our clients or showrooms.

• Unique product and innovation – Our products stand out in a saturated market.

• Our exclusive tanking compound is cool and effective.

• Back up – we are always happy to help, at any point of the process.

• Fantastic products, high quality.

"We chose the OTL INFINITY I-Line for our flagship display due to it being totally unique and unlike anything else available from competitors.

We only push OTL products to trusted installers as we want to keep the integrity and good name of the On The Level products."

Bali Nagi
