Product Code

**INFFORM15/9 LH9**

#### Drawing Specification

##### Product Description

24mm former 1500mm x 900mm with integrated gradient.  
The formers have a precise, built-in fall, which ensures  
surface water flows in the direction of the waste outlet.

##### Purpose

The OTL Infinity I-Line Former once installed is concealed.  
The purpose of a former is to provide a sufficient gradient in  
the floor within the showing zone.

##### Most Commonly Used In

Private homes, high end developments, gyms, spas, hotels.

##### Install Particulars

All OTL Infinity I-Line Formers can be trimmed onsite if  
required.

Used only in conjunctions with tiled floors.
