Product Code

INFFORM15/9 RH9

Drawing Specification

Product Description

24mm former 1500mm x 900mm with integrated gradient.
The formers have a precise, built-in fall, which ensures surface water flows in the direction of the waste outlet.

Purpose

The OTL Infinity I-Line Former once installed is concealed.
The purpose of a former is to provide a sufficient gradient in the floor within the showing zone.

Most Commonly Used In

Private homes, high end developments, gyms, spas, hotels.

Install Particulars

All OTL Infinity I-Line Formers can be trimmed onsite if required.

Used only in conjunctions with tiled floors.
