Product Code

LIN2FORM 9/10

Drawing Specification

Product Description

24mm Former 900mm x 1000mm with integrated gradient.
The OTL formers have been specifically designed to be concealed; once they are laid they cannot be seen. The formers have a subtle, built-in gradient which encourages surface water to flow in the direction of the waste outlet.

Install Particulars

Used only in conjunctions with a tiled floor

Purpose

The OTL Linear Former once installed is concealed - they cannot be seen. The purpose of a former is to provide a sufficient gradient in the floor within the showing zone. The former provide the perfect solution in order for water to quickly drain directly towards a gully outlet.

Most Commonly Used In

Private homes, Spas, Hotels, Gyms, Luxury residential bathrooms, Hotel bathrooms

**All single entry formers can be trimmed onsite if required.
Only use in conjunction with OTL Tanking System**
