# SEVENOAKS PROJECT

## SPEC SHEET

### SECTOR:

Residential

### OUR CLIENT:

Price Building Consultancy

### OTL PRODUCTS SPECIFIED:

OTL INFINITY I-Line

## PROJECT OVERVIEW

Price Building Consultancy manage all building and refurbishment needs; from work space consultancy and planning, right through to facilities management. Working with Price helps takes the hassle out of any building project, as they take care of it all, whether you are fitting out an existing space or moving to a new location.

Founded in 2006 by Stephen Price, Price Building Consultancy have an exceptional reputation of building excellence and client satisfaction. When it comes to achieving projects on time and within budget they have a 100% track record, even when working to critical completion dates and short turnaround times.

The project OTL were asked to help with was a private residence in Sevenoaks, Kent. Price Building Consultancy have been there for 14 months (full-time), undertaking a complete renovation of the interior and exterior of the property, as well as working a third floor into the loft. The project includes new flooring, fixtures and fittings, as well as painting of walls and ceilings etc.

Read on for our interview with Simon Tree, Contracts Director at Price Building Consultancy.

## HOW DID YOU HEAR ABOUT OTL?

OTL were recommended to us by one of our suppliers back in 2008. We've used On The Level products for a number of different high-end projects now and have always been happy with the outcome of any product we purchase.

## WHAT MADE YOU DECIDE ON THE INFINITY I-LINE PRODUCT?

We didn't know what product to use for the designs of the bathroom we had so that's when I gave Tim at OTL a call. I explained to him the concept of the open plan en-suite and some of the design features the client had requested. We discussed a few options and then Tim told me about the not yet released INFINITY I-Line channel. From that moment on I was sold; I knew I could trust OTL because of our long-standing working relationship with them, so being one of the first to try a new product was a no brainer and an exciting prospect.

## HOW EASY DID YOU FIND THE INSTALLATION OF THE INFINITY I-LINE?

My colleague, Tony, fitted the INFINITY I-Line and said at the time how easy it was to install. The product came with instructions anyway but it really was one of the most simple, hassle-free installations we've had. It really made the job fit well within our timescales rather

than adding any additional time or hassle to an already large-scale project.

## ARE YOU HAPPY WITH THE FINISHED RESULT?

Absolutely. The finished look of the en-suite is so unique, I'm quite proud to be able to put our name to it.
