

OTL Anti-ligature Tile Conversion Kit

On The Level, has developed a unique anti-ligature and anti-tamper tile conversion kit ("OTL ALTCK") to fit all OTL under floor formers for tiled wet rooms.

This tamper-proof drain cover plate and frame is ideal for public areas, custodial cells, hostels, washrooms, gyms, etc. It is manufactured from 5mm stainless steel to a bead blasted finish and is fitted with a M6 tamperproof Torx pinhead countersunk screw. Measuring 155mm square, it can cope with 40 litres of water per minute and is compatible with the following gullies: OTL TSG1 / TSG 2 / TSG50 / TSG52 (116) / USG 1 / USG 3.

OTL ALGAS Anti-ligature grating for Sheet Flooring

On The Level designed the "OTL ALGAS", an anti-ligature drain cover for detention centre wet areas with sheet flooring. The unique stainless steel cover plate contains a particular layout of holes that make tampering impossible, yet water flow is not inhibited. The cover plate is secured into the trap with screws that can only be removed with a specific implement, the shape of which cannot be copied by taking an imprint of the head. The OTL ALGAS has been approved by the Home Office and installed in several custodial developments, including Rochester Prison.

For more information on this product and the anti-ligature grating for sheet vinyl flooring see our downloads section / technical and installation instructions at www.onthelevel.co.uk
