

The OTL Contractor's Linear Drain

The perfect partner for multiple wet room projects

On The Level, the UK's leading manufacturer of concealed wet floor shower trays, has designed and developed a new range of channel drains and gullies to meet market conditions and customer demand, suitable for shower and wet floor areas.

OTL gullies are ideal for domestic wet rooms, lifetime homes, disabled adaptations, student accommodation, bathroom pods, hotels, hospitals and sport and leisure facilities. All gullies have top access for easy cleaning.

OTL Channel Drain and Gullies

Overall height:	28mm	28mm
Overall height with trap:	123mm	123mm

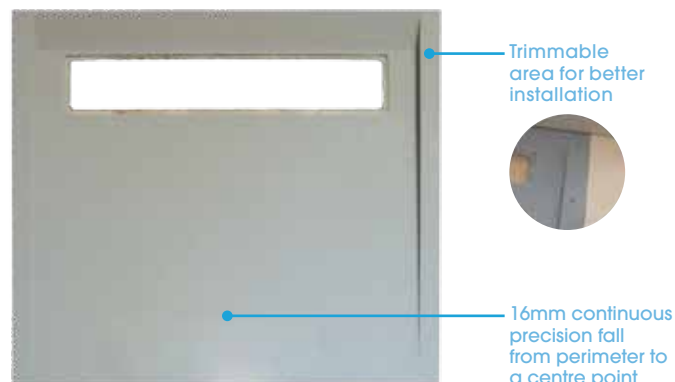

Choice of brushed or polished finish cover plate

OTL Formers

On The Level's preformed shower trays (formers) are manufactured from 24mm birch plywood to provide the perfect solution for specifiers, installers and user. Easy to install, the formers carry a lifetime guarantee and due to the versatility of their birch ply construction can be ordered in shapes and sizes to suit every conceivable space. Using computerised machinery the trays can be produced to specifications within 10,000th of an inch to ensure the perfect fit.

Many architects, surveyors and developers are now familiar with the On The Level approach of creating the perfect wet room. Our friendly and highly knowledgeable team are here to explain the product and regularly give technical advice from our help desk. Site visits are available to help solve and devise solutions for specific projects.
