

"Finishing touches are important. As the trend for linear shapes within the bathroom continues, drainage grates, in polished stainless steel, which can be laid close to and in-line with the wall, for a contemporary look. Impey offers a linear drainage-grate that can be inlaid with tiles which match the rest of your wetroom design, so the drain blends seamlessly into the wetroom floor – the ultimate in sleek and attractive drainage options." **Impey**

**1.** Wetroom specialist Impey has every area of a wetroom covered. Pictured is the EasyFit floor former – which acts as a floorboard replacement – with a stainless steel 'Grid' drainage grate, individually styled to suit the look of the bathroom. The design is partnered with AquaMat underfloor heating and a AquaScreen X glass shower screen with toughened safety glass, Aqua-Shield easy clean finish and three glass finishes. The shower space is accessorised with Geesa foot rest and grab rail.

**2.** Ceramique Internationale has launched a new range of linear drain wet trays as part of its partnership with Jackoboard. The Aqualine Ecosy linear wet tray is available in six sizes and with a thickness of just 30mm, is perfectly suited for installation on suspended timber floors. The range also features brushed stainless steel drain channels which can be inverted and tiled to offer the seamless and invisible design often preferred in wetrooms.
